HOW CONFIGURE A CABINET:

Step 1: Select the type of cabinet we need. EX.: AGS / TX-700.

Step 2: We take the value of the internal height h.
Ex.: For the AGS / TX-700 cabinet it would be h = 600 mm.

Step 3: We choose the AGS / TX type drawers that we need and the sum of the external heights of all of them has to match with the height h of the frame we have selected.

NOTE: It is possible to combine in the same cabinet drawers with GS Single Guide and GT Telescopic Guide.
